

Data Appendix

Project 1: Group 2

Data set: '*email_spam.csv*'

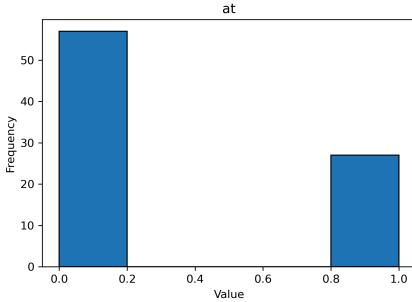

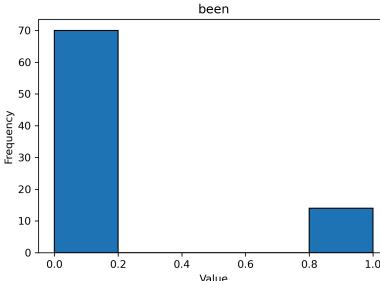

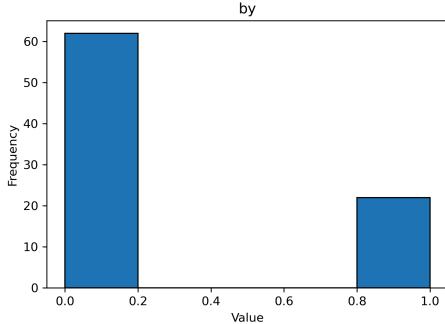

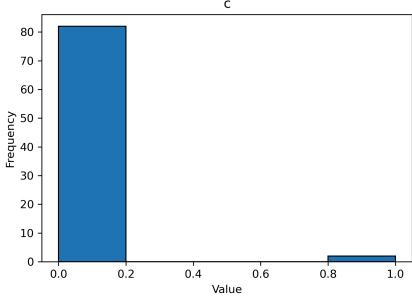

One observation corresponds to one email in the data set. Includes the title and body of the email. Original variables include 'type', 'text', and 'title'. All other variables listed below were calculated during preprocessing. Every variable contains 84(0) observations (0 missing data points). All indicator variables have a '1' indicating presence or a '0' otherwise, and were constructed from either the 'text' or 'title' text variables.

2023	Indicator variable for presence of the word '2023'.  2023 count 84.000000 mean 0.226190 std 0.420877 min 0.000000 25% 0.000000 50% 0.000000 75% 0.000000 max 1.000000
about	Indicator variable for presence of the word 'about'.  about count 84.000000 mean 0.238095 std 0.428476 min 0.000000 25% 0.000000 50% 0.000000 75% 0.000000 max 1.000000
access	Indicator variable for presence of the word 'access'.  access count 84.000000 mean 0.107143 std 0.311152 min 0.000000 25% 0.000000 50% 0.000000 75% 0.000000 max 1.000000
